

PRAC Feedback on Student Learning Outcomes and Assessment Reports

Program Name:

	Best Practices Criterion	Feedback
Outcomes	The program has clearly defined, measurable student learning outcomes that focus on knowledge, skills, and competencies in the specific discipline.	
Measures	Assessment measures are clearly aligned with the listed student learning outcomes.	
	Assessment measures are independent from end-of-course grades and teaching evaluations.	
	Multiple measures, including direct measures, are used to assess each student learning outcome.	
	Each assessment measure includes a specific threshold for student success.	
Data Collected	Data collected is clearly reported with sufficient detail.	
Data Analysis	Data analysis addresses the degree to which the students are attaining the defined SLOs (utilizes threshold attainment as applicable).	
	Data analysis is longitudinal.	
Improvements Based on Analysis	Data collected and analyzed is used to inform and document improvements to student learning.	
	Evidence that findings were evaluated and discussed by the collective faculty associated with the program.	
Schedule for Assessing	Assessment report includes a schedule/plan for assessing all student learning outcomes.
